PROFILE

B2B sales professional with eight years in technical sales and presales roles, bridging complex technology and commercial outcomes. Proven track record managing multi-stakeholder sales cycles, building pipeline from scratch, and owning revenue targets across mid-market and enterprise segments. Combines engineering background with commercial drive and strong relationship-building skills to navigate technical buyers and C-level decision-makers across industries including financial services. Native German, fluent English, based in Madrid.

PROFESSIONAL EXPERIENCE

since 09/2025

Career Transition & Language Acquisition

Madrid, Spain

Relocated to Spain for personal reasons. Full-time Spanish language course (B2). Currently seeking opportunities in the European market.

2022 – 2025

Deutsche Telekom AG (Group)

05/2023 – 08/2025

Presales Consultant Hyperautomation

T-Systems International GmbH, Stuttgart

- Developed a strategic go-to-market concept embedding a new product portfolio into the sales organisation — escalated through four management levels and approved by the CEO for company-wide implementation
- Delivered approx. 80 customer-facing product demonstrations and 15 scoping workshops across Automotive, Finance and Health — conducting discovery and qualification for complex enterprise opportunities
- Enabled sales teams across five business verticals and external consultants to independently position and cross-sell automation solutions — building product knowledge and customer-facing competence from the ground up
- Built the presales function from scratch within a newly established business unit — defining role profiles, sales processes, and qualification frameworks with no existing template

09/2022 – 02/2023

IT Hunter

Telekom Deutschland GmbH, Stuttgart

- Sold IT portfolio solutions (Microsoft 365, Cisco Webex) to business clients; transitioned internally to a more technically demanding presales role at T-Systems International after the probationary period

03/2021 – 08/2022

Assistant to the CEO & Solution Consultant

Ascon Systems GmbH, Stuttgart

- Conceived and delivered a €250k customer demo lab — became the central anchor for all customer and investor visits; personally led every product demonstration
- Introduced Scrum as the development methodology: initiated PSM certification and trained the engineering team
- Initiated a TISAX certification project — conducted internal gap analysis against automotive information security requirements

08/2019 – 12/2020 **Technical Sales Engineer — Machine Vision Integration**
AIT Goehner GmbH, Stuttgart

- Took over and stabilised a €2M annual portfolio of approx. 100 customer accounts — maintaining revenue through the COVID-19 pandemic
- Led full technical coverage of a Bosch production line with 6 integrated machine vision systems — confirmed line utilisation increase from 72% to over 80%
- Self-initiated rollout of Microsoft Teams as a collaboration platform: convinced senior management and trained the entire workforce — directly enabling remote operations during the pandemic

01/2019 – 07/2019 **Freelance E-Commerce**
Amazon FBA, Erlangen
Built an independent e-commerce business from the ground up — from product sourcing and branding to marketplace optimisation and sales.

06/2017 – 10/2018 **Technical Sales Engineer — 3D Machine Vision**
Cognex Corporation, Bamberg

- Prospected and developed a newly established sales territory — conducting 6–10 customer visits per week over 5 months and closing 3 deals totalling approx. €80k
- Proactively compiled and presented customer feedback to leadership, directly influencing the team's portfolio expansion to the full 3D product range
- Selected for transition to Account Sales Engineer (key account structure) based on demonstrated performance — taking on full strategic portfolio responsibility

EDUCATION

09/2016 – 02/2017 **ILSC Vancouver — Language College**
ILSC Vancouver, Canada
Degree: Cambridge Certificate in Advanced English (CAE / C1)

10/2011 – 09/2016 **Industrial Engineering — Mechanical Engineering (Dipl.-Ing. FH)**
Kempten University of Applied Sciences, Kempten
Specialisation: Technical Sales and Product Management
Diploma thesis: "Development of a static simulation model for technical and economic evaluation of combined heat and power systems" — Grade 1.0
